Dear Mr.P.Gowtham,

I write this letter as a formal reprimand for the lack of commitment you have recently shown to teach the course CE8702-RAILWAYS, AIRPORTS, DOCKS AND HARBOUR ENGINEERING.

It is essential that Faculty members strive to create an engaging, interactive learning environment for our students.

As a Teacher, it is our responsibility to ensure that our students are receiving the best possible education.

We must make sure that our lessons are interesting and relevant, and that our students have the opportunity to ask questions, engage in critical thinking, and develop their own ideas.

I understand that not every student learns in the same way, and that there must be a balance between the traditional methods of instruction and the use of technology in the classroom.

However, I believe that our faculty must make an effort to use the latest technological tools in order to better engage our students and to provide them with the most comprehensive learning experience possible.

I expect that all faculty members will make a greater effort to ensure that our students are receiving the best possible education.

I also expect that our faculty will make an effort to stay current with the latest educational trends and technologies.

In this connection you are informed to attend the Counseling meeting with your HoD on 28.11.2022, in the Principal Office.

I write this letter as a formal reprimand for the lack of commitment you have recently shown to teach the course CS8792 –Cryptography and Network Security.

It is essential that Faculty members strive to create an engaging, interactive learning environment for our students.

As a Teacher, it is our responsibility to ensure that our students are receiving the best possible education.

We must make sure that our lessons are interesting and relevant, and that our students have the opportunity to ask questions, engage in critical thinking, and develop their own ideas.

I understand that not every student learns in the same way, and that there must be a balance between the traditional methods of instruction and the use of technology in the classroom.

However, I believe that our faculty must make an effort to use the latest technological tools in order to better engage our students and to provide them with the most comprehensive learning experience possible.

I expect that all faculty members will make a greater effort to ensure that our students are receiving the best possible education.

I also expect that our faculty will make an effort to stay current with the latest educational trends and technologies.

To

Mrs.R.Abirami.,AP/ECE
Assistant Professor,
Electronics and Communication Engineering,
Bharathiyar Institute of Engineering for Women,
Salem – 636112.

Dear Mrs.R.Aruloli,

I write this letter as a formal reprimand for the lack of commitment you have recently shown to teach the course GE3451-Environmental Science and Sustainability.

It is essential that Faculty members strive to create an engaging, interactive learning environment for our students.

As a Teacher, it is our responsibility to ensure that our students are receiving the best possible education.

We must make sure that our lessons are interesting and relevant, and that our students have the opportunity to ask questions, engage in critical thinking, and develop their own ideas.

I understand that not every student learns in the same way, and that there must be a balance between the traditional methods of instruction and the use of technology in the classroom.

However, I believe that our faculty must make an effort to use the latest technological tools in order to better engage our students and to provide them with the most comprehensive learning experience possible.

I expect that all faculty members will make a greater effort to ensure that our students are receiving the best possible education.

I also expect that our faculty will make an effort to stay current with the latest educational trends and technologies.

In this connection you are informed to attend the Counseling meeting with your HoD on 10.06.2023, in the Principal Office.
